

ANSHI SINGH

BI Developer

Noida, Uttar Pradesh, India | +91 8899126625 | singhanshi761@gmail.com | [LinkedIn](#) | [Tableau Public](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Experienced Tableau Developer & BI Analyst with 4 years of expertise in data visualization, dashboard development, SQL querying, and business intelligence reporting. Proficient in building interactive, performance-driven Tableau dashboards that transform complex datasets into actionable business insights across healthcare and enterprise domains. Skilled in KPI reporting, LOD expressions, Row-Level Security, report automation, data validation, and stakeholder-focused visualization solutions.

SKILLS

Data Visualization & BI	Tableau Desktop, Tableau Server, Tableau Cloud, Tableau Public, Power BI
Tableau Specializations	LOD Expressions, Row Level Security (RLS), Window Functions & Table Calculations, Data Blending, Dashboard UI/UX, KPI Design, Parameters & Filters
Server Administration	User Permission Management, Content Security, Site & Project Configuration
Data & Analytics	SQL (Joins, CTEs, Window Functions), Excel, Statistics, Python, Data Validation, SIT & UAT Testing, Agile Methodology
Cloud & Tools	AWS, Figma, JIRA, Confluence
Business Domain	Healthcare & Pharma Analytics (Johnson & Johnson)
GenAI & Emerging Tools	Familiar with GenAI Tools (ChatGPT, Claude, Copilot) & Prompt Engineering

WORK EXPERIENCE

System Engineer

November 2024 – Present

Tata Consultancy Services, Noida

- Collaborated with cross-functional stakeholders to gather requirements and deliver interactive Tableau dashboards for J&J healthcare operations in APAC Region.
- Developed and maintained UI-rich, responsive dashboards with optimized SQL queries for efficient data retrieval and analysis across large datasets.
- Ensured data accuracy and reliability through structured validation processes, driving actionable insights for strategic business decisions.
- Enhanced dashboard performance using Tableau best practices, supporting end-to-end reporting for enterprise healthcare workflows.

Assistant System Engineer

September 2023 – November 2024

Tata Consultancy Services, Bengaluru

- Built and maintained a 5-tab Tableau dashboard covering Daily Snapshot, Control Jobs, EMR Cluster & DAG List views, enabling real-time audit visibility across MWAA-managed enterprise workflows.
- Implemented DAG-level tracking & EMR Cluster health monitoring, enhancing end-to-end visibility into Apache Airflow-managed workflows for audit compliance.
- Optimized dashboard performance using LOD expressions, divergent logic & KPI cards, delivering responsive Mobile & Desktop views for comprehensive audit insights.

Assistant System Engineer – Trainee

August 2022 – August 2023

Tata Consultancy Services, Bengaluru

- Cleared TCS mandatory assessments including Elevate Wings 1, Articulation, Biz Skills, Agile, UNIX, Python, SQL, Tableau.
- Completed 12+ enterprise compliance trainings covering Information Security, Data Privacy, Business Ethics, Software Security, etc.
- Earned Tableau Desktop Specialist, AWS Cloud Practitioner & AWS Developer Associate certifications.
- Built strong foundation in Tableau, SQL, Business Intelligence & Data Warehousing.

PROJECTS

ANGEN (Analytics Next Generation)

July 2024 – May 2026

- React-based large-scale enterprise Web Analytics Platform by J&J providing BI & data analytics dashboards to internal business users across global markets.
- Developed key dashboards including Sales Performance, MBR Executive Summary, SOV, NTS, AP360 Competitiveness, and Weekly NTS with end-to-end Tableau development and KPI logic.
- Contributed to a 200+ Tableau dashboard enterprise BI platform; worked with cross-functional teams to ensure seamless integration and functionality.
- Introduced smart time-period filters (Latest, Previous, All) on heavy dashboards, reducing unnecessary data load and improving performance.
- Automated Tableau workbook deployment across 4 markets (JP, AU, KR, CN) via Python & config-driven CLI, replacing manual workflows for 200+ workbooks.
- Implemented Table View, Excel, and PPT export across ANGEN, enabling offline reporting for J&J stakeholders.

MODCON — Modular Content Performance

February 2024 – June 2024

- Developed a 5-tab Tableau dashboard covering Executive Summary, User Adoption, Content Performance, and Business Impact with Trend, Bar, Donut, Map & Dual-Axis charts.
- Executed end-to-end SIT & UAT testing with 0 defects; implemented User Security, Performance Optimization & Dashboard Refresh Scheduling.

Ace Medical Insights

November 2023 – February 2024

- Developed an advanced version of MODCON implementing Adoption, Acceptance, Execution & Impact Metrics in the dashboards.
- Built 100+ custom filters, parameters & calculated fields in Tableau, enabling dynamic and self-serve data exploration for business users.
- Transformed complex datasets into intuitive visualizations, reducing customer support inquiries by 20%.

MWAA Audit Analysis

September 2023 – November 2023

- Built a 5-tab Tableau dashboard (Daily Snapshot, Control Jobs, EMR Cluster & DAG List) with LOD expressions & KPI cards, featuring responsive Mobile & Desktop views.
- Integrated ControlM job scheduling data and DAG List monitoring into unified dashboard views, reducing manual audit effort and improving operational traceability.
- Implemented DAG-level tracking and EMR Cluster health monitoring for end-to-end visibility into Apache Airflow-managed workflows for enterprise audit compliance.

CERTIFICATIONS

- Tableau Desktop Specialist
- Microsoft Certified: Power BI Data Analyst Associate
- AWS Certified Developer – Associate
- AWS Certified Cloud Practitioner

EDUCATION

Bachelor of Science in Computer Science

July 2018 – June 2022

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

- Obtained 8.2 CGPA out of 10.0

KEY ACHIEVEMENTS

- Honored with 10 TCS performance awards across 2023–2025, including 5× Best Team, 3× On the Spot, Service & Commitment, and Elevate Wings Award — reflecting consistent excellence in teamwork, delivery, and professional growth.
